Short Background of the Fund	BP Green Invest is a financing solution aimed at promoting projects in energy efficiency, pollution control, resource conservation, waste valorization, and the manufacture of equipment related to 'green' projects. It offers advantageous interest rates with the option to choose between fixed or variable rates, attractive financing and subsidy ratios, and exemption from processing fees. Additionally, it provides flexibility in loan duration, with the bank's share lasting up to 12 years with a 4-year grace period. BP Green Invest comprises three products: Eco Green Invest, Eco Energy Invest, and Eco Tatwir Invest, each tailored to specific financing needs.
How to apply?	Contact Banque Populaire for details. https://entreprise.groupebcp.com/fr/Pages/Contact.aspx
